

AMD Dashboard Demo Software

Release Notes For
Interim Version 2.0.0

Wednesday, May 25th, 2005

---General Description---

This is release V2.0.0 of that AMD Dashboard Demo.

This version of the AMD Dashboard Demo supports systems with AMD Athlon™ 64 ,
AMD Turion™ 64 Mobile Technology processors.

Install the utility by executing the setup.exe file.

---Required Supporting Software---

Your system needs to be AMD PowerNow!™ Technology enabled to run the application properly.

If you are running this software on Windows 2000, you need to download and install AMD PowerNow!™ software from www.amd.com.

If you are using Windows XP or higher, you need to install the AMD Athlon™ 64 Processor Driver for Windows XP available for download at www.amd.com. After installing the driver, go to Start->Settings->Control Panel->Power Options and select the 'Portable/Laptop' power scheme to enable AMD PowerNow!™ technology.
